HEALTH FOR A SHILLING

Holloway's Pills.

Headaches, Bile, Loss of Appetite, and Lowness of Spirits.

These Pills require no interruption of business or pleasure; they act mildly on the bowels, strengthen the stomach, and promote a healthy action of the liver, whereby they purify the blood, cleanse the skin, brace the nerves, and invigorate the whole system. They effect a truly wonderful change in debilitated constitutions, as they create a healthy appetite correct indigestion, remove bile, giddiness head aches, and palpitation of the heart.

Weakness and Debility.

of debility, languor, and nervousness generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease; re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigor. They increase the appetite, while they secure perfect digestion to all ordinary food, and release the invalid from restraint in diet.

A Word to Females.

There are two periods, especially in Woman's life, which require for safe passage, judgment and attention. Irregularity is apt at those critical times to take place, and to lay the foundation of future disease. These Pills, safe in action, and effective in result, should be taken at certain periods, and the issue will be marvellous both to the young and the middle aged. They prevent nervousness, hysterics, dropsy, and a host of similar serious disorders, by expelling all impurities from the system, therefore none should ever be without them.

Coughs, Colds, and Asthmas,

No medicine will cure colds so quickly as these Pills, when of long duration or settled on the chest or even though it has assumed the first stage of asthma, they may be relied on as a certain and never failing cure, particularly if the Ointment be well rubbed into the chest and throat night and morning. this catch the eye of any asthmatical person so bad as even not able to lie down in bed, let him well use these two preparations for only a week, and the result will be marvellous.

Blood to the Head—Diseases of the Heart.

More persons die suddenly from diseases of the heart than the unlearned suppose: in such complaints, the bowels should always be kept well open, as also where there is a tendency of blood to the head. These celebrated Pills purify the blood in an extraordinary manner, and should be taken in copious doses when such symptoms occur, taking care not to overload the stomach; by this means all danger is quickly averted.

Children's Complaints.

It is not generally known, but such is the fact, that children require medicine oftener than their parents Three-fourths of the children die before they attain the age of eight years. Let mothers, then, be wise and give to their children small doses of these invaluable Pills once or twice every week, in such quantity as may act gently upon the system twice in the twenty-four hours. For infants, a Pill may be crushed and given as a powder in a little water. The gross humors that are constantly floating about in the blood of children, the forerunners of so many complaints, will thus be expelled, and the lives of thousands saved and preserved to their parents.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Dropsy	Inflammation	Sore Throat
Asthma	Dysentery	Jaundice	Stone and Gravel
Bilious Complaints	Erysipelas	Liver Complaints	Secondary Symptoms
Blotches on the Skin	Female Irregularities	Lumbago	Tic-Douloureux
Bowel Complaints	Fevers of all kinds	Piles	Tumours
Colics	Fits	Rheumatism	Ulcers
Constipation of Bowels	Gout	Retention of Urine	Venereal Affections
Consumption	Head-ache	Scrofula, or King's Evil	Weakness, from what ever cause
Debility	Indigestion		
	Worms of all kinds		

☞ There is a considerable saving by taking the larger sizes
N. B.—Directions for the guidance of patients in every disorder are affixed to each Box n14

MINING MONOPOLISTS AND THEIR DEFENDERS.

The defenders of the mining monopolists, like other poor logicians, have been engaged in spinning a rope of sand that is broken as soon as touched. They start out in the most pompous, inflated, and pedantic manner imaginable to convince the public that mining monopolies are the quintessence of modern economical science. With all the vanity of a silly girl in her teens, who thinks herself admired by everybody when she is scarcely noticed, let alone flattered, some of these self-important Sir Oracles tell us that they "represent the opinions of the largest and most influential body of men in this city and upper country." Such inflated vanity in people of slender abilities, and less experience, touching the subject of which they proclaim themselves the masters—the heralds of a new industrial era—is superlatively ridiculous, and only becoming in "illiterate journalists." The property-holders of this city and in British Columbia are disposed to pause and contemplate the consequences before they consent to revolutionize the mining laws—repeal the existing restrictions against a monopoly of the mineral lands. People who have nothing to lose and everything to gain are easily enlisted in revolutionary doctrines. People who concoct schemes to grow rich suddenly by undoing the work of a million of the Anglo-Saxon race in California, Australia, Washoe New Zealand, Idaho, and Colorado, may chuckle over illogical dissertations written to subserve their unholy ends. These people are willing to have the vital principles of mining laws in every Anglo-Saxon gold-producing country christened "anomalies." They will even consent to "misrepresentation." But the solid men of the country who intend to summer and winter in the country—who are not mere birds of passage—not men whose motto is "grab and leave"—not men who have nothing to lose and all to gain—these men—be they property-holders, traders, mechanics or laborers—are the bulwarks of the country; these men are not disposed to deny the testimony of facts—they are not willing to ignore the examples of prosperity afforded by Australia, California, Washoe and New Zealand—examples which have been wholly and solely created by the recognition and upholding of a vital principle in the mining laws that guarantees—insures—the distribution of mineral lands among the masses of the population, rather than centralizing it in the hands of a few.

Flippant wiseacres whose inexperienced wits are turned by the novelty attached to the resurrection of an exploded feudal doctrine may dogmatically assert, that all who are opposed to making placer diggings "real estate" are "dogs in the manger," whereas the whole tendency of their arguments is to create monopolies, by which the fable of the "dog in the manger" may be practically illustrated by monopolists in Cariboo.

Reference is made to the copper mines of Cornwall. But copper veins are not placer diggings. There is no resemblance between the two. It might be more to the purpose of the monopolists, if they referred to Russian example. On the Kouro—in the Ural mountains—the mines are monopolised; the miners are serfs or exiles. There feudal lords and feudal principles prevail. There Gold is for the few, not for the many. That is the pith and substance of all the agitation about making mining claims real estate in Cariboo, like town lots in Yale. Our Sierras are asked to copy Russian example. Mexican peonage, Russian serfdom, and Chinese coolies, are to be the models for the statesman in which to mould—dwarf—the manly energetic, intelligent, enterprising miner in, British Columbia. A genuine "dog in the manger" policy, which would cajole the miner to give up a certainty for a shadow—bamboozle the miner to relinquish a title which costs him five dollars a year, for the specious scheming promises of monopolists, whose interest it is everywhere to reduce the price of labor.

We have been afforded lately a rare illustration of the game that is being played to change our mining lands into real estate. No less an authority than a morning paper that claims to "represent the majority in this city and upper country" in favor of robbing the miner of his patrimony, tells us that mineral lands are "real estate" in California. Nothing is more untrue than this. Nothing is more calculated to misdirect the public. The real truth is: the only auriferous land in California that is "real estate" is the Fremont Mariposa Grant, and that was not confirmed till the placer diggings in Mariposa were well-nigh exhausted. Throughout the length and breadth of the gold-fields in California, with the above exception, there is not a foot square of placer diggings in which the title is not vested in the government of the United States. In Washoe also the United States holds the title. The miners are not even licensed by the United States to dig gold in placer diggings or work quartz veins in California or in Washoe. Ditch companies have no title from the general government. Even the agriculturalist who cultivates a farm on mineral lands has no title but a possessory one. The whole mining population of California and Washoe are trespassers on the national domain, and may be ejected by the government of the United States at its pleasure. Yet in the face of these facts, that may be verified by any one, we have a morning paper asserting that mining claims have been "real estate" "in California since 1850." If this statement be not put forth to misdirect the public mind, what is the inexplicable "motive" that has pushed it into print? Such a glaring misstatement cannot surely be attributed to ignorance? We are at a loss to imagine from whom the "information was obtained?" "Old California miners"?—certainly not from them, they know better. It may be from some one who has palmed off a "sell."

Be the source of false inspiration what it may, the representative of "the opinions of the majority in this city and upper country," is either in ignorance, of or has disregarded the first rule of reasoners; and strangely enough that could only be expected in "illiterate journalists." Whoever wishes to reason rightly is careful of the rule: "Be correct in your facts." For if a reasoner starts out with false premises he naturally arrives at wrong conclusions. Arguments so based are like a rope of sand—broken as soon as touched. What becomes then of the specious reasoning of the herald of the new era? Its facts are "false facts." Its conclusions erroneous ones It might as well have been engaged in writing a new edition of Robinson Crusoe, or Jack the Giant Killer, or "the Goose that laid the Golden Egg," or in taking warning of the "dog that snapped at the bone carried by his shaddow in the stream, and lost the one he held in his mouth." But the logicians of the monopolists, mistaken as they are, afford us an excellent opportunity to demonstrate by the example of California and Washoe, that a country can become great and flourishing through the development of its mineral resources, although the mineral lands are not real estate, and although all persons residing upon them are trespassers. There are, aside from placer diggings, three great branches of mineral industry in California and Washoe, which have flourished: River claims, quartz claims, and ditches. Hundreds of thousands of dollars have been invested in fluming operations on the Feather, Yuba, American, and other rivers in California. Similar amounts have been absorbed by quartz-mills; and half a million at a time by Ditch companies. The Gould-Curry silver-mills in Washoe cost $500,000. If all these interests have flourished on claims held by trespasers—claims workable or else jumpable—if placer mining has succeeded at the same time on the same precarious tenure as other kinds of mining—if multitudes of companies have been organised and worked successfully in California without any title except a possessory one, what hindrance can there be to the creation of similar companies, or to the execution of similar industrial projects in Cariboo, since the Crown licenses the miner to take out the gold, and protects him against all trespassers? What can be done in California can be done on Williams Creek. It is not a greater enterprise to tunnel the Bald Hills, or prospect the flats on Williams Creek, than to tunnel Table Mountain, or turn the Yuba out of its bed.

THE BRITISH COLONIST

Tuesday Morning, August 25, 1863.

AUCTION SALE TO-DAY.

J. A. McCREA will sell at 11 a. m. on Messrs J. T. Little & Co., Wharf, Sugar, Molasses, Syrup, also, a large Canoe, etc.

J. P. DAVIES & CO. will sell at 11 a. m. at their Salesroom, Mahogany Billiard Table, Office Desk, also, Meerschaum and Briar Root Pipes, Butter, Cheese, etc.

THE BEACON HILL TREASURE.—Charles Dove was again brought up in the Police Court yesterday. The master-at-arms of H. M. S. Sutlej was examined, and showed that the prisoner did not obtain leave of absence until Wednesday afternoon. From this evidence Mr. Bishop argued that the prisoner could not have seen the prosecutor hide his money on the preceding day, and after again placing before the court the several points for determination before the prisoner could be legally charged with the offence, left the case in the hands of the court. Mr. Pemberton said the prisoner had been ably defended, and every point in his favor had been put forward, but he considered that it was not competent for him as a justice of the peace to take cognizance of such a case; it was his duty to send it to a higher court for a jury to determine whether the prisoner had found and taken the money or not. There were various points for a jury to consider, and the Crown prosecutor would decide upon the form in which a charge would be preferred. It was a case of great importance to the public generally, and it could never be said that the course pursued by the prisoner upon finding a large sum of money was an honest one. Information should have been laid, and an enquiry instituted as to the rightful owner. He therefore felt no hesitation in sending the case for trial. Mr. Bishop applied for an order from the court for a sum of money lodged by the prisoner in the hands of Mr. King for the purpose of conducting his defence. Mr. Pemberton said he would consider the application.

STREET IMPROVEMENTS.—While the City Fathers are resting on their oars from the lack of important business for discussion, it would be well if attention were turned to the state of Government and other streets. Large loose stones are permitted to remain on either side of the streets, alike annoying to equestrians and pedestrians, which, by the employment of a couple of carts for a day or two, might be easily removed. While the stenches arising from drains between Broughton and Johnson streets, likewise on the lower portion of Yates street, are beyond endurance. The council deserve all credit for the great improvments wrought by them in the general appearance of our streets since funds have been at their command, but the wretched, or rather total want of proper drainage in some of the more densely populated parts of the city is a crying evil, and deserving of immediate attention.

CURIOUS PHENOMENA.—The atmosphere last night was filled with electricity, and for several hours the flashes of lightning were frequent and very vivid. At about half past ten an extraordinary phenomenon was observed on the Olympian range in Washington Territory. While the flashes every now and then lit up the Heavens and defined the bold outline of those noble mountains, on a sudden the two highest snowy peaks became so brilliantly illuminated as to appear on fire, and continued so for several minutes, when the luminous appearance became gradually more faint and then disappeared.

CITY COUNCIL.—The Council met last Evening at half-past seven. Present—Councillors Copland, Reed, Searby, Stronach, Lewis and Hicks. Mr. Copland moved that Mr. Hicks take the chair. The motion was not seconded, and Mr. Hicks moved that Capt. Reid take the chair. Mr. Lewis then moved that the Council adjourn to Monday evening next at the usual hour, there being no important business to transact and several councillors having engagements. The motion was seconded by Mr. Stronach and carried unanimously.

SALE OF TOWN LOTS IN CARIBOO.—The sale of lots in the town sites of Richfield, Barkerville and Cameron Town on Williams creek, B. C., will take place on the 31st inst. The upset price of full lots is fixed at $260, and fractions of lots in proportion. Twenty-five per cent of the purchase money is to be paid on the fall of the hammer, and the remaining seventy five per cent within fourteen days. The value of improvements in all cases to be added to the upset price.

A PUBLIC BENEFIT.—The watering cart belonging to Messrs. Greenslade & Co, is doing good service. The accumulation of fine pulverized dust in our streets is nearly as great a nuisance as the mud in winter, and this enterprising firm is certainly deserving of the general support of the public to enable them to lay the dust effectually, not only on the macadamized portion, but over the whole of our principal thoroughfares.

STEILLACOOM.—The sloop Random arrived yesterday from the Sound. We learn from the master that the American Bark Benjamin Rush, while leaving Steillacoom, a few days since, timber laden for San Francisco, took the ground above the narrows, heeled over and filled. She was subsequently got off and towed back, and after being discharged was beached for examination. She was not believed to have suffered much damage.

VALUABLE DISCOVERY.—We learn from reliable authority that coal oil has been discovered in an accessible portion of British Columbia, and that steps will be taken to develop the extent of the springs. Should they prove sufficiently productive to warrant the working, we shall then have an important orticle of importation at our own doors.

SPORTING WAGER.—It will be seen by an advertisement, that Mr. James, Veterinary Surgeon, in order to afford Mr. Johnson another opportunity of testing the speed of his mare, offers to match his chesnut gelding against her for $250 or $500—distance 400 yards as before. To be run within a week, and the match to be open for three days.

THE LATE ACCIDENT TO MR. STEAENS.—We are pleased to hear that Mr. Stevens, of the Half-way House, Saanich read, who recently sustained a severe wound from the accidental discharge of his gun, is recovering from the effect of his injuries.

WHISKY SELLING.—Henry Bradbury was charged by officers Curry and Wilmer, yesterday, in the Police Court, with supplying spirits to Indians, and was remanded to prison for two days for further evidence.

☞ A meeting of the Licensed Victuallers Association was held last night at the Ballarat (late St. James') Hotel, and important business was transacted.

A HORSE KILLED.—A fine bay horse was found dead on Sunday at the foot of the cliff between the Race Stand and Clover Point. The animal had apparently fallen over and broken its back.

☞ H. M. Ships Sutlej, Cameleon and Forward, were cruising yesterday in the Straits under canvas.

FOR THE SOUND—The sloops Northern Light and Mary Ellen left yesterday with passengers for ports on the Sound.

☞ The Hydah Indian who was shot on Saturday near the Reserve lies in a precarious state. Dr. Haggin attends the sufferer.

☞ Several sail were observed in the Straits yesterday.

GAME.—Sportsmen report Grouse very plentiful this season.

Farming at Cowichan.

VICTORIA, August 22, 1863.

EDITOR BRITISH COLONIST—SIR: Not wishing to offend your correspondent, "a husbandman," by taking no notice of his letter, I will merely say I note its spirit, and as he is clearly a lover of the beautiful, and "a thing of beauty is a joy forever," I do not wish to disturb him in the full enjoyment of that sentiment, and will pass on to things of the earth, earthy, and endeavor to raise his depressed spirits, which evidently have received a severe shock from the advice given him by the bold Victorian gentleman, on the subject of manures, etc. He must excuse me, however, if I use as my text the words of this thoughtless adviser: "Well work the land to a good depth, and add a sufficient quantity of suitable manure."

One of the great powers which soils possess is that of absorbing from the air certain gaseous materials, the very substances which plants absorb, retaining them for the requirements of the growing crop. This power of the soil for self-manuring is greatly increased by frequent stirrings to a good depth, and bringing every portion of it into immediate contact with the atmosphere.; the consequence is the porous body, the soil, acts upon the air, and there is absorbed carbonic acid, nitric acid, and a considerable portion of ammonia, another material for the growth of the plants.

This is the true theory of fallowing lands, as sometimes practiced in England, and is nothing more or less than a system of manuring from the air? But this stirring of the soil becomes the active means of extracting manure from rains, in the form of ammonia and nitric acid, in such quantities as to be perfectly astonishing.

It has been proved by a very learned French chemist (Mr. Barrall), that the rain water which descends in the neighborhood of Paris contains a quantity of ammonia and nitric acid, estimated to be equal to a dressing of 2 cwts. Peruvian guano per acre. If the land therefore is left unstirred, a great portion of this manure is lost to the land, by the rain running off the surface. Therefore it is a *sine qua non* with all good farmers to keep the soil well stirred.

"And add a sufficient quantity of manure." It is needless to say that what are called artificial manures, of any kind, are too expensive to admit of their being imported and used in this colony under present circumstances—attention, therefore, should be directed to every available substitute to be found in this Island, as a manure for most virgin soils. Lime ranks very high, and as this substance is found here in various localities, the farmer should avail himself of the advantage, for I am of opinion, a more useful manure for the soils of this colony can hardly be found. Lime acts powerfully not only on the mineral but also on the organic matter in the soils. When applied in the form of a carbonate, we have at once a determinate action on the organic matter, and also a great power of absorption from the air—a rapid decomposition takes place of roots, and plants and other vegetable debris, furnishing the greatest amount of available nutrition in the shortest space of time. In their natural state decomposition of these substances goes on but slowly for the want of a substance with which the different vegetable acids formed in the various phases of decomposition could unite.

In many soils too there is a considerable amount of nitrogen, evidently not available for plants, but in such a state that when brought into contact with calcareous matter is capable of being at once taken up by plants.

In conclusion, if limestone cannot be found in his locality, in situations favorable to its conversion into caustic carbonate, "a husbandman" will excuse me recommending a substitute: let him look out for those masses of broken oyster and other shells so frequently to be met with in this Island, and convert them into manure by burning—his own ingenuity will devise the best means of accomplishing this. Five or ten tons of lime to the acre will be to "add a suitable manure."

AGRI HORTICOLO.

The Nile and its Tributaries.

At an extra meeting of the Royal Geographical Society in London, to welcome back Captains Speke and Grant, and to hear from them an account of their discovery of the sources of the Nile, Capt. Speke commenced his paper, "The Nile and its Tributaries Compared," by describing the Lake Nyanza, the principal head of the Nile. The lake is situated in lat 3 deg. S., and from that point to its debouchure, in the Mediterranean, in lat. 31 deg. N., the Nile traverses a distance of over 3,000 geographical miles, or nearly one-tenth of the circumference of the earth. When he discovered the Nyanza Lake in 1858, he found it to be a large sheet of sweet water, lying about 3 500 feet above the level of the sea, and he at once felt certain that it must be the source of some vast river such as the Nile. The natives had traditions, too, of its great extent, and certain Arab merchants of Zanzibar, who penetrated those regions in search of ivory, assured him that Nyanza was the source of some great river. Other traditions heard from the natives confirmed him in this opinion; and he believes he would have settled the question of the source of the Nile in 1859 by traveling to Uganda with an Indian merchant, had not the chief of the expedition fallen ill. On his return to England, he found Sir Roderick Murchison deeply imbued with the necessity of at once completing the work he had left undone. He himself could not rest satisfied until the world had accepted his views, now happily confirmed by actual inspection and observation. On returning with his brave companion, Capt. Grant, to Unyanyembo, 5 deg. south of the lake, in 1861, he hit upon a new route, which he supposed from the accounts of the ivory dealers, would lead to a creek in the western flank of the lake; but owing to the confusion existing in the language of the country with regard to the terms river and lake, it turned out to be a new lake, the Luero-lo-Urigi, which once contained large quantities of water, but is now fast drying up. It is to the west and north of Karagwe that the great lake receives its largest supplies of terrestial water, through the medium of the Kitangule river, which drains off the Luero-lo Urigi and many minor lakes. These lakes are all mere puddles compared to the Nyanza; but the Kitangule is a noble river, sunk low in the earth, like a huge canal, and measuring 80 yards across.

The question now arises what forms these lakes without number? The Mountains of the Moon, from whence they derive their water, are in the middle of the rainy zone, where he observed in 1862 that no less than 233 days out of year were more or less wet days. The first place from which he obtained a view of Lake Nyanza during the second expedition was from the town of Mashonde, in the Uddu portion of the country of Uganda, on the western side of the lake. Pursuing his way northward along the shore to the valley of Katonga, which is situated on the Equator, the land above the lake becomes very beautiful, being composed of low sandstone hills deeply scored and seamed by the heavy rains, covered with gigantic grass of unsurpassed verdure, and by dells of trees as tall and straight as the blue gums of Australia. Crossing the Equator he reached the Mworange, a stream of moderate size, and said to flow out of the lake. It runs north, and joins the Nile in the kingdom of Unyoro, when its name is changed to Kafu. Further on the Luajerri follows its example, and still further on, at the centre of the northern coast of the lake, issues the parent stream of the Nile, falling over rocks of an igneous character, and forming falls 12 feet high, which he had christened by the name of the "Ripon Falls," in honor of the President of the Geographical Society at the time of the starting of the expedition. The escape of the Nyanza's waters, 20 miles north of the Equator, was the only outlet examined, owing to the barbarous restrictions placed on travellers by the king of the country. They, however, saw the junction of the Nile with the Kafu and Asua rivers, and crossed the Luajerri half-way between its escape from the lake and its junction with the parent stream. Proceeding down the Nile from the Ripon Falls they first passed through a row of sandstone hills, after which the river rushes down due north with the beauty of a mountain torrent, running off at last into long flats more like a lake than a river. In Unyoro it is increased by the contributions of the Kafu and Luajerri, and continues navigable as far as the Karuma Falls, where it rushes on with boisterous liveliness. They could not continue their passage beyond this point owing to a war that was raging in the country. They next met the old river in the Madi country, where it still bears the unmistakable character of the Nile—long flats and long rapids. Here it is that another great feeder from the Nyanza lake, the Asua river, joins it on the eastern side. On the other side a long flat extends far into the country—as far, Captain Speke believes, as the little Luta Nzigi lake. With the rest of the Nile we ought to be well acquainted, but little is really known about it, owing to the fact of no one having yet taken the trouble to place nilometers at proper spots. Proceeding onwards, the next great affluent is the Bahr-el-Ghazal, which joins the Nile with hardly any visible stream, having more the appearance of a lake than of a river. The second is the Geraffee river, which may be said to be only one-third of the Nile in size at its point of junction. Its source is yet to be discovered. Its character suggests the possibility of its coming from Lake Nyanza. The third affluent is the Southern Sobat river, also full and navigable. The Northern Sobat they passed without knowing it. Captain Speke then went on to describe some other tributaries of the Nile, concluding by giving an account of his meeting with Mr. Baker at Khartoum, who had nobly come up the Nile to meet him with no less than three ladies. Mr. Baker and his party intended following out the stream supposed to lead to the little Luta Nzigi lake to its source. They would be pleased to hear that Mr. Petherick was in perfect health and excellent spirits, and trading energetically when last he heard of him.—*Despatch.*

Nova Scotia Gold Mines.

HALIFAX, N. S., May 30, 1863.

The old adage, "it never rains, but it pours" is verified with regard to intelligence from the Gold Mines, which has been literally pouring in upon us for the past few weeks. The newly discovered quartz veins at Soux Lake, near Dartmouth, mentioned in my last letter, promised to be very valuable. The Government surveyors have been at nine of these already; quite a number of claims are taken up, and the district received the name of "Montague."

Four hundred and two days labor on a claim at Isaac's Harbor produced 43 tons of quartz which yielded 24½oz. of gold, or over $12 per day for each man employed. The total expanse of mining and crushing was $973; the value of the gold, at $20 per oz., $4,830; net profit $3,858. This will of course be understood as an extraordinary yield.

From Goldenville we get cheering intelligence. One claim has given 106 oz. of gold from 22 tons of quartz, another 16 lbs. of gold from 30 tons of quartz, and 15 tons of quartz, of a better quality, remained to be crushed. Several American and Colonial companies are organizing for operation at these mines. Mining is much better understood this season than last, and will be more successfully prosecuted.

A few days ago 288 oz. of gold were brought to town from Sherbrooke, all of which was procured during the present year from the Hewitt claim on the Blue Lead. About nine men are steadily employed on the claim, which is now worked to the depth of eighty feet, where the quartz yields 8 oz. of gold to the ton. The gold above mentioned was taken from quartz yielding but 5½ oz to the ton; so that the returns are now greater than at any time since the opening of the claim.

It is said that the richest gold bearing vein of quartz yet discovered in the Province has been opened on the claims of the "Nova Scotia Lead and Gold Crushing and Amalgamating Company" at Sherbrooke. This lead when first worked in March last, was only half an inch thick at the surface; but so rich that 300 lbs. of quartz taken from a shaft of five feet in depth yielded 5 oz. 12 dwts. of gold. But this yield has since been exceeded. The agent in his return for April reports that the last 10 feet in the shaft gave 200 lbs. of quartz, which yielded 9 oz. 9 dwt. 9 grs. of gold, equivalent to 90 oz. per ton. The lead, though small, increases in thickness and is worked downward, and pays in the shaft on an average, two per cent over washing expenses.

"The accounts from Sherbrooke, Wine Harbor and Isaac Harbor gold fields, are most encouraging. We learn from a gentleman who recently returned from a trip to the eastern gold fields, that 33 tons and 6 hundred-weight of quartz crushed at Goldenville, yielded 115 lbs. 7 dwt. of gold. The quartz was taken from the Newfoundland claim on the Mulgrave lead at Isaac Harbor, and is the result of four men's labor for five months. A friend of ours, recently from Wine Harbor, was shewn by Mr. Hattie, the Superintendent of the 'Victoria Crusher' a mass of pure gold, weighing 32 oz. extracted from 6 barrels of quartz; also, 18 oz. from 3 barrels of quartz. The quartz was taken from the Caledonia pit. A number of other pits are doing remarkably well. Work has commenced on the 'Major Norton claim,' with an excellent prospect of success. A contract has been made to sink 30 feet, and to be continued as may be found necessary. There is no doubt this will prove a very rich claim."

At Wine Harbor, nine barrels of quartz from the Caledonia claim produced 50 oz. of pure gold. These by no means exhaust the various and cheering statements which greet us on every hand with regard to the value of our gold mines. Of course there are some persons engaged in gold mining in this Province who are not paying their working expenses; others, perhaps, who are sinking money; but this is the case in all branches of industry, and in all gold producing countries. It is satisfactory, however, to learn, as we do from the report of the chief gold commissioner, that within the first year after the working of our mines, the average yield per man, was greater than in any of the gold fields of the world.

HINTS TO LANDLUBBERS.—The *Vanity Fair's* marine contributor gives the following hints to landlubbers:

The stern post is not an evening newspaper.

The berths on board do not necessarily add to the census.

The hatchway's are not on hen's nests.

Pugilists are not engaged to box the compass.

The boatswain does not pipe all hands with a meerschaum.

The braces are not suspenders.

The swell of the ship's side is not caused by the dropsy, nor is the taper of the bowsprit a tallow candle.

The hold is not the vessel's grip.

The trough of the sea is not dug out of the ship's log.

The crest of the wave is not an indication of its rank.

The buoy is not the captain's son.

The men are not beat to quarters with a club.

Seamen do not blast their eyes with gunpowder and a slow match.

Ships are never boarded at hotels.

The bow of a ship is not an evidence of its politeness.

A sailor's stockings are not manufactured from a yarn of his own spinning.

The sails of a ship are not made by an auctioneer, nor are the stays constructed by a milliner.

Mariners do not clean out their chests by the use of lozenges or hoarhound candy.

A MORMON "MIRACLE."—The London *Spectator* says that at Cardiff a husband urged his wife, who was not a Mormon, to go to a meeting, and promised her that she should see there "the angels of the Lord." She went, and during the service the lights were turned out, and she saw figures in white moving about. Close by her feet she discerned strange small figures moving slowly, and rustling as they moved. She was probably expected to faint here; but she seized one of the figures at her feet instead, and put it in her pocket. When she got home she found that it consisted of a few frogs in a white paper bag. The elders declared that these were miracles, and their dupes believed them.

A DESPERATE STRUGGLE FOR LIBERTY.—An escaped convict of the Massachusetts State prison was recently arrested in New York, and was placed on board the steamer Commodore, in a stateroom in which there was a small skylight, When the boat reached Sand's Point, Conn., he was missing and it was apparent that he must have escaped through the skylight which afforded small egress for a man of his size, and who was handcuffed to boot. Search was made throughout the boat, but nothing could be found of him till they reached Groton, when he was discovered sitting on the upper part of the rudder, to which he had clung while they had come a hundred miles in the Sound,

THE GRIZZLY.—The grizzly bear (*Ursus horribilis*) is the largest and most formidable of the quadrupeds of California. He grows to be four feet high and seven feet long, with a weight, when very large and fat, of 2,000 pounds, being the largest of the carnivorous animals, and much heavier than the lion or tiger ever get to be. The grizzly bear, however, as ordinarily seen, does not exceed 800 or 900 pounds in weight. In color the body is a light greyish-brown, dark brown about the ears and along the ridge of the back, and nearly black on the legs. The hair is long, coarse, and wiry, and stiff on the top of the neck and between the shoulders. The "grizzly," as he is usually called, is more common in California than any other kind of bear, and was at one time exceedingly numerous for so large an animal; but he offered so much meat for the hunters, and did so much damage to the farmers, that he has been industriously hunted, and his numbers have been greatly reduced. He ranges throughout the State, but prefers to make his home in the chaparral or bushes, whereas the black bear likes the heavy timber. The grizzly is very tenacious of life, and he is seldom immediately killed by a single bullet. His thick, wiry hair, tough skin, heavy coats of fat when in good condition, and large bones, go far to protect his vital organs; but he often seems to preserve all his strength and activity for an hour or more after having been shot through the lungs and liver with large rifle balls. He is one of the most dangerous animals to attack. There is much probability that when shot he will not be killed outright. When merely wounded, he is ferocious. His weight and strength are so great that he bears down all opposition before him, and he is very quick, his speed in running being nearly equal to that of the horse. In attacking a man, he usually rises on his hind legs, strikes his enemy with one of his powerful fore paws, and then commences to bite him. If the man lies still, with his face down, the bear will usually content himself with biting him for a while about the arms and legs, and then go off a few steps and watch him. If the man lies still, the bear will believe him dead, and will soon get tired and go away. But let the man move, and the bear is upon him again; let him fight, and he will be in immediate danger of being torn to pieces. About half a dozen men, on an average, are killed yearly in California by grizzly bears. and as many more are cruelly mutilated.—*Hittell's Resources of California.*

"HAIL COLUMBIA."—Some deep burrowing *quid nunc*, over sea, has come out with a new notion about the well-known old air, President's March, but better known as Hail Columbia, one of our national airs. "It has recently been discovered," says this mare's nestor, "that the air is taken from *Richard Cœur de Lion*, an opera of the last century composed by Gretry, who, though a Belgian by birth, was for fifty years the star composer of the French lyric stage. The original is said to be a very majestic air, and now forms a part of a fantasia arranged from the opera named, and is quite popular at the Champs Elysees concerts." The writer states that it is said that the liberties taken with it, in filching it for Hail Columbia, have not at all improved it. If there be such an air in the opera of Gretry, and the German musical conductor, resident in New York, who composed the President's March, in honor of George Washington, about the time of the first presidental inauguration, "filched" it, the fact had never before been disclosed to the world. *Richard Cœur de Lion*, very popular in its time, on the French stage, was translated into English, and successfully brought out in London.—*San Francisco Paper.*

BLISSFULL IGNORANCE.—According to the late Sir Astley Cooper, no man ought to know from any physical sensation, that he has a stomach. Let those who are daily reminded of the exisience of the organ by pain, and all the concomitants of dyspepsia—whose stomachs digest slowly, imperfectly, and with sensations which pen cannot describe, whose whole system do penance under the inflictions of the rebellious member—try, merely try BRISTOL'S SUGAR-COATED PILLS. As surely as they do so, their living martyrdom will speedily be exchanged for ease. They will forget that they have stomachs, save when the appetite, created by this genial stomachic cathartic, reminds them that the reinvigorated organ requires a supply of sustenance. There will be no more oppression after eating, pain in the right side, nightmare, or constipation. The cures effected by this pure and incomparable vegetable alterative are complete and radical. They are put up in glass vials, and will keep in any climate. Everywhere for sale by the regular druggists.

SANITARY CONQUESTS.—Milton says in the greatest of his sonnets:

"——Peace hath her victories
Not less renowned than war."

The victories which BRISTOL'S SARSAPARILLA has been daily achieving for the past thirty years have been of this class. They have involved the defeat of almost all human complaints. Scrofulous disorders have been routed, cancers expunged tumors obliterated, abscesses healed, eruptions removed, affections of the liver cured, and all distempers originating in an acrid condition of the secretions and corruption in the blood, rapidly overcome. Scores of cases as hopeless as that of Mr. Alexander Mann, of Rochester, New York, whose tongue, mouth, and facial muscles were nearly gone, have been brought to a triumphant issue, and it is known that in more than twenty thousand instances the most malignant external diseases have been permanently cured by Bristol's Sarsaparilla. All prominent druggists keep the article.

A WONDERFUL PILL.
THE BEST PURGATIVE PILLS.
THE BEST PURGATIVE PILLS.
THE BEST PURGATIVE PILLS.

Doctor Radway's Pills are the best purgative pills in the world, and the only vegetable pills that can be used in place of calomel or blue pills. In using these pills the patient is not compelled to strain, or undergo a series of cramps, griping pains, nausea; their operation, though thorough and effectual in the expulsion of the faeces, is mild, soothing, and natural. One to six boxes will effect a cure, without necessitating the patient to continual dosing with physic. In affections of the Liver, Dyspepsia, Costiveness, Indigestion, Piles, and in all fevers, their curative powers are marvellous. Sold by all druggists, price 25 cents per box.

BEWARE OF COUNTERFEITS.

TO PERSONS WHOSE HEALTH IS BROKEN DOWN.—Every disease might unquestionably be prevented if nature were assisted to rally with that most wonderful of all invigorators

Dr. HOSTETTER'S STOMACH BITTERS.

When the flame of life wanes and quivers from exhaustion, administer this famous restorative. It will once more become steady and strong. In the debility which follows violent fever; in diarrhorea, dyssentery, dyspeptic complaints and cholic in the weakness consequent upon natural decay, or resulting from free living or over exertion, and also in those painful and too much neglected ailments to which ladies are exclusively subject, the Bitters never fail to give permanent relief.—Sold by all Druggists and dealers everywhere.

HOLLOWAYS OINTMENT AND PILLS.—The treatment pursued by Professor Holloway for the cure of wounds and ulcers is the most simple an certain in its effects, it has been tried by hundreds of thousands and never been known to fail; by the administration of an internal remedy (the Pills,) he drives disease out, and by the administration of an external remedy (the Ointment), he heals wounds, ulcers, and the worst of external disorders. By this celebrated treatment, also, bad legs and ulcers are cured, even when they have been upwards of twenty years standing

THE GREAT CURE
For all the diseases of the
LIVER, STOMACH & BOWELS,
Put up in Glass Phials, and warranted to
KEEP IN ANY CLIMATE.

These Pills are prepared expressly to operate in harmony with the greatest of blood purifiers, BRISTOL'S SARSAPARILLA, in all cases arising from depraved humors or impure blood. The most hopeless sufferers need not despair. Under the influence of these two GREAT REMEDIES, maladies that have heretofore been considered utterly incurable, disappear quickly and permanently. In the following diseases these Pills are the safest, the quickest, and the best remedy ever prepared, and should be at once resorted to.

Dyspepsia & Indigestion,
Liver Complaints,
Constipation,
Headache,
Dropsy,
Piles.

For many years these PILLS have been used in daily practice, always with the best results, and it is with the greatest confidence they are recommended to the afflicted. They are composed of the most costly, purest, and best Vegetable Extracts and Balsams, such as are but seldom used in ordinary medicines, on account of their great cost, and the combination of rare medicinal properties is such that in long standing and difficult diseases, where other medicines have completely failed, these extraordinary Pills have effected speedy and thorough cures.

Only 25 Cts. per Phial.

DR. HOSTETTER'S
STOMACH BITTERS.

THE OPERATION OF THIS PALAtable remedy upon the stomach, liver and excretory organs is singularly soothing and conservative. It regulates, recruits and purifies them. Dyspepsia in all its forms yields to its control and invigorating properties.

Invigorate the System.

Vigorous digestion and pure bile produce nutricious blood, and nutricious blood a healthy frame. Does the victim of a dyspeptic stomach and a disordered liver desire to know how the digestion may be improved, the bile and the other fluids of the body purified?

Dr. Hostetter's Stomach Bitters

Will accomplish this desirable revolution in the system regulating the secretions and excretions, giving tone to the animal juices which dissolve the food, strengthen every relaxed nerve, muscle and fibre, and brings the whole machinery of vitality into vigorous and healthful play.

Strengthen the System.

The best means of imparting vigor to the broken down frame and shattered constitution, which has yet been invented or discovered, is proffered to the feeble of both sexes and all ages in

Dr. Hostetter's Stomach Bitters.

Debility, from whatever cause arising, may be cured; strength, in whatever manner it may have been wasted, may be restored by the use of this powerful and healthful invigorant. For indigestion and all its painful effects, bodily and mental, they are a positive specific.

A Word to the Aged.

In the decline of life the loss of vital force consequent upon physical decay can only be safely supplied by some vivifying preparation which recruits the strength and spirits, without entailing the exhaustion which is always the final effect of ordinary stimulants. We tender to the aged

Dr. Hostetter's Stomach Bitters,

As an invigorant and restorative, immediate in its beneficial action and permanent in its effects. It tones the stomach, improves the appetite, and acts like a charm upon the spirits.

For Females.

Thousands of ladies resort to it as a remedy for hysteria, fluttering of the heart, nervious headache, vertigo, general debility and all peculiar disturbances and derangements to which, as a sex, they are subject. It cheers and enlightens the depressed mental powers, as well as strengthens the body, and its use is never followed by any reaction.

PIMPLES ON THE FACE.—HOW often do we hear the remar, "I would give worlds if these pimples on my face were gone." Now, friend, you are not called upon to give worlds, but if you will give a dollar those pimples can every one be obliterated; they proceed from a humor in the blood, that Scovill's Blood and Liver Syrup will drive out, and your skin will become like alabaster. Surely you cannot doubt this, when the worst cases of Scrofula and Erysipelas are cured by the use of from one to three bottles. We believe in the Syrup, and wish others to join us in the belief. For sale by all Druggists.
REDINGTON & CO., Agents, San Francisco.

MEDICAL ASSISTANCE.

RADWAY'S READY RELIEF.
THE GREAT EXTERNAL AND INTERNAL REMEDY,
STOPS THE MOST EXCRUCIATING PAIN IN A FEW MINUTES,
AND
RAPIDLY CURES THE PATIENT.

RADWAY'S READY RELIEF
Proves its superiority to all other Medicines at once.
ITS FIRST INDICATION
Is to relieve the sufferer of PAIN, no matter from what cause it may originate, or where it may be seated.
If in the Head, Face, or Throat;
If in the Back, Spine, or Shoulder;
If in the Arms, Breast, or Side;
If in the Joints, Limbs, or Muscles;
If in the Nerves, Teeth, or Ears;
Or in any other part of the body, its application to the part or parts where the pain exists will afford immediate relief.
IF SEIZED WITH PAIN
In the Stomach, Bowels, or Kidneys;
In the Bladder, Spleen, or Liver;
In the Teeth, Ears, or Throat;
In the Brain or Nervous System;
One teaspoonful of RADWAY'S READY RELIEF to a wineglass of water will, in a few minutes, restore the patient to ease and comfort.
If Lame, Crippled, or Bed-ridden;
If Palsied, Scalded, or Burned;
If Bruised, Wounded, or Cut;
If Strained, Injured, or Disabled;
If Sun stroke, or seized with Fits;
If Weak in the Spine or Back;

RADWAY'S READY RELIEF
should be applied to the part or parts afflicted. It instantly relieves the patient from pain, and quickly heals, soothes, and strengthens the disabled parts. In all cases of Bites of Rabid Dogs, Reptiles, Stings of Poisonous Insects, the application of RADWAY'S READY RELIEF to the wound will prevent inflammation and mortification.

FEVER AND AGUE.
Persons exposed to the Malaria of Ague, or if seized with Chills and Fever, will find a positive Antidote and Cure in Radway's Ready Relief. Let two teaspoonsful of the Ready Relief, in a wineglass of water, be taken on getting out of bed in the morning, and however exposed to malaria you will escape.

WHEN SEIZED WITH
CHOLERA, or Diarrhœa, or Flux;
Dysentery, Cramps, and Spasms;
Billious Cholic, or Gastritis;
Scarlet, Typhoid, or other Fevers;
Influenza, Coughs, or Colds;
Inflammation of the Stomach or Bowels;

RADWAY'S READY RELIEF
SHOULD BE TAKEN INTERNALLY.
One dose will ... ; its continued use will, in a few hours, cure the patient.

HOW IT CURES.
The secondary indication of RADWAY'S READY RELIEF is to cure the patient of the disease or malady that occasions the pain; this it accomplishes rapidly and radically. *So swift* is the patient transformed from pain, misery, weakness, and decrepitude, to the delightful enjoyment of health and strength, that patients frequently ascribe its talismanic power to the supernatural influence of enchantment.

RHEUMATISM, LUMBAGO, GOUT, NEURALGIA, TOOTH ACHE, CROUP, INFLUENZA, SORE THROAT, QUINZY, DIPTHERIA, HOARSENESS, BRONCHITIS, STIFF JOINTS, ENLARGED TENDONS, HEADACHE, (Sick or Nervous,) ASTHMA, or HARD BREATHING.
It is truly marvellous how quick RADWAY'S READY RELIEF cures the sufferers of these maladies. The poor, crippled, and pain-stricken Rheumatic has not to wait days before a change takes place, but in a few minutes derives ease and comfort.

LONDON TIMES.
Twenty Years of Sleepless Nights.
Wm. Sydney Myers, Esq., of Havana, Cuba, the correspondent of the London Times, suffered with Acute and Chronic Rheumatism for twenty five years, and for twenty years he had not enjoyed one whole night's calm rest. He applied RADWAY'S READY RELIEF—it immediately gave him ease and secured him the first calm and undisturbed sleep during the twenty years. The continued use of the READY RELIEF cured him.

PREVENTION BETTER THAN CURE.
THERE IS NO OCCASION FOR SICKNESS.
When you first feel pain, then take a teaspoonful of the READY RELIEF, in water; or apply it to the parts where you feel the discomfort.

ALL MALIGNANT DISEASES
first give warning of their presence, and if met promptly before they become securely intrenched within the system, will be readily expelled.

SIGNS OF SICKNESS.
Headache, Pains in the Limbs—in the Stomach, Bowels, and Kidneys—Cold Chills, and Hot Flushes, Coated Tongue, Burning Skin, Nausea, Shivering, Dullness, Loss of Appetite, Restlessness, Giddiness, &c., &c., are premonitory symptoms of Malignant Diseases. One dose of the READY RELIEF is sufficient to break up and expel diseased action, and restore the patient to health.

IN THE ARMY.
Dysentery, Billious Cholic, Flux, Yellow, Typhoid and Malarious Fever, Rheumatism, Small Pox, Diptheria, Letters from Medical Directors, Surgeons, and Military Officers endorse the importance of RADWAY'S READY RELIEF over all other medicinal remedies.
EIGHTH MAINE.
Eighth Maine regiment, Serg't C. P. Lord, writes that Radway's Ready Relief saved the regiment from death while quartered at Tybee Island, S. C., when working in the swamps, erecting fortifications. Every man seized with Typhoid and other Fevers, Fever and Ague, Diarrhœa, Dysentery, Rheumatism, was cured by the use of the Ready Relief.

CAUTION.
In all cases ask for Radway's Ready Relief. Take no other. See that the signature of Radway & Co. is on the outside label of each bottle. Every agent is supplied with a new and fresh stock. Price 25 cents per bottle. Sold by Druggists, Merchants and country storekeepers.
RADWAY & CO.,

All animals, produce, vegetables, sowers, and other articles, intended for exhibition must be taken to the Show Yard between the hours of 6 and 9 a. m., on the day of the exhibition, after which hour nothing will be allowed to be entered for competition. Exhibitors to provide feed.

N. B.—This rule will be strictly adhered to.

No persons except those in charge of stock will be allowed to remain in the Show Yard after half-past nine.

The Judges of the different departments will commence their duties at 9½ a. m., and the public will be admitted to the Show Yard at 12 o'clock, on payment of 50c.; children under 12 half price. Members and their families showing their tickets, will be admitted free.

At 2 o'clock the Show Yard will be thrown open to the public, and will be closed at 3 p. m., when exhibitors will be at liberty to remove their property.

All produce and stock will be returned to the exhibitors. Everything must be removed before 12 o'clock the day after the show.

All foreign bulls, stallions, rams and boars; also agricultural implements, will be allowed to compete free of entrance fees at the Society's Show of 1863.

Every exhibitor of field peas, beans, grain, and green crops, shall have a label upon each stating Where the seed was obtained;
The number of acres, roods, or perches from which the samples were selected;
What crops preceded it;
What manure was applied;
And what was the produce per acre, rood, or perch.

All cereals, vegetables, fruits and flowers to be of Island growth of this year; all in Class C, to be Island produce. jy25

HELMBOLD'S

Genuine Preparation.

HIGHLY CONCENTRATED

Compound Fluid Extract

BUCHU!

A Positive and Specific Remedy

FOR DISEASES OF THE

BLADDER, KIDNEYS, GRAVEL,

—AND—

Dropsical Swellings.

THIS MEDICINE INCREASES THE POWER of Digestion, and excites the ABSORBENTS into healthy action, by which the WATERY OR CALCAREOUS depositions, and all UNNATURAL ENLARGEMENTS are reduced, as well as PAIN AND INFLAMMATION, and is good for

MEN WOMEN, AND CHILDREN

HELMBOLD'S EXTRACT BUCHU,

FOR WEAKNESS

Arising from Excesses, Habits of Dissipation, Early Indiscretion or Abuses, attended with the following Symptoms:

Indisposition to exertion, Loss of Memory, Weak Nerves, Horror of Disease, Dimness of Vision, Universal Lassitude of the Muscular System, Hot Hands, Dryness of the Skin, Loss of Power, Difficulty of Breathing, Trembling, Wakefulness, Pain in the Back, Flushing of the Body, Eruptions on the Face, Pallid Countenance

These symptoms, if allowed to go on, which this Medicine invariably removes, are followed by

Impotence, Fatuity, Epileptic Fits,

In one of which the patient may expire

Who can say that they are not frequently followed by those "DIREFUL DISEASES,"

"INSANITY AND CONSUMPTION."

Many are aware of the cause of their suffering, but none will confess.

The Records of the Insane Asylums, and the Melancholy Deaths by Consumption,

Bear ample witness of the truth of the assertion The CONSTITUTION ONCE AFFECTED WITH ORGANIC WEAKNESS requires the aid of medicine to strengthen the system, which

HELMBOLD'S EXTRACT BUCHU

Invariably does. A trial will convince the most skeptical.

Females, Old or Young, Single, Married, or Contemplating Marriage.

In many affections peculiar to Females, the EXTRACT BUCHU is unequalled by any other Remedy, as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations Ulcerated or Schirrus State of the Uterus, Leucorrhœa or Whites, Sterility, and for all complaints incidental to the sex, whether arising from indiscretion, habits of dissipation, or in the decline or change of life as the symptoms above

NO FAMILY SHOULD BE WITHOUT IT.

Use Helmbold's Extract Buchu

For all affections and diseases of the URINARY ORGANS, whether existing in MALE or FEMALE, from whatever cause originating, and no matter of how LONG STANDING. Diseases of these organs require the aid of a DIURETIC.

HELMBOLD'S EXTRACT BUCHU

Is the great Diuretic, and it is certain to have the desired effect in diseases for which it is recommended. Evidence of the most responsible and reliable character will accompany the medicines.

CERTIFICATES of CURES

From eight to twenty years standing, with names known to Science and Fame.

HELMBOLD'S EXTRACT BUCHU

CURES

Secret Diseases

In their last stages; little or no change in diet; at little expense: no inconvenience, and no exposure. It causes a frequent desire and gives strength to urinate thereby removing obstructions preventing and curing Strictures of the Urethra, allaying pain and inflammation, so frequent in the class of diseases, and expelling all poisons, diseased and worn out matter. Thousands upon thousands who have been the victims of quacks, and who have paid heavy fees to be cured in a short time, have found they were deceived, and that the "poison" has, by the use of "powerful astringents," been dried up in the system, to break out in an aggravated form, and PERHAPS AFTER MARRIAGE.

CERTIFICATES FROM PHYSICIANS

BOSTON, July 17, 1860

MR. HELMBOLD—DEAR SIR:—I have used your Extract Buchu in diseases of the bladder and kidneys with the most happy results, and I feel assured I never used an article of medicine that produced a more sure and certain relief for the complaints for which it is recommended

JACKSON F. STEWART, M. D.

CINCINNATI, Oct. 21, 1860.

MR. HELMBOLD—DEAR SIR:—I have used your Extract Buchu in diseases of the bladder, kidneys, gravel and dropsy in my practice, and have witnessed such signal results arising from its use, that I have no hesitation in adding my testimony to the recommendations already given in favor of it.

Very respectfully,

D. WEBSTER HAINES, M. D.

PITTSBURG, May 10th, 1863.

MR. HELMBOLD—DEAR SIR—Having used your medicines for some years in my practice, I can confidently recommend them to be all that you claim for them in dropsy, gravel, and diseases of the bladder and kidneys.

Truly yours. W. F. CLINTON, M. D.

BALTIMORE, April 13, 1857.

MR. HELMBOLD—DEAR SIR:—I am a physician of twenty-five years standing. I have prescribed your Extract Buchu in the various affections of the bladder and kidneys, and they have in all cases given the utmost satisfaction. I confidently recommend them to the profession as invaluable medicines, paramount to all others as a safe and speedy remedy in all cases of sickness for which it is recommended.

Very respectfully yours,

ROBT. F. GREEN, M. D.

"Physicians Please Notice."

We Make no Secret of the "Ingredients."

HELMBOLD'S EXTRACT BUCHU

Is composed of Buchu, Cubebs, and Juniper Berries, selected with great care. Prepared in Vacuo.

BY H. T. HELMBOLD,

Practical and Analytical Chemist, and Sole Manufacturer of

HELMBOLD'S GENUINE PREPARATIONS,

PHILADELPHIA.

AFFIDAVIT:

Personally appeared before me an Alderman of the city of Philadelphia, H. T. Helmbold, who, being duly sworn, doth say his preparations contain no narcotic, no mercury, or other injurious drugs, but are purely vegetable.

Sworn and subscribed before me, this 23d day of November, 1857.

ROYAL MAIL

Steam Packet

Company's Agency,

For British Columbia & Vancouver Island.

OFFICE, MACDONALD & CO., BANKERS,

Yates Street.

THE ATTENTION OF SHIPPERS and passengers is particularly directed to the superior facilities the Royal Mail Steam Packet Company's Line affords for the speedy conveyance of Treasure, Goods and Passengers to and from England to British Columbia and Vancouver Island, in connection with the **Pacific Mail Steamship Company's Vessels and the Panama Railroad.**

The superiority of the accommodation and entertainment on board the Royal Mail Steamers, together with the time occupied on the passage between England and Aspinwall direct being so much shorter than by any other route, and the moderate rate of passage money, render this Company's steamers the CHEAPEST AND MOST EXPEDITIOUS MEANS OF TRANSIT, for passengers or for the forwarding of Goods and Treasure from Aspinwall to Europe.

Under an arrangement with the PACIFIC MAIL STEAMSHIP CO., Specie and Bullion can be conveyed to London and Havre in France

Further information on the subject of Freight and Passage Money will be furnished by the undersigned.

MEDICAL.

THE WORLD'S FRIEND!

Holloway's Ointment.

A Cure for Piles and Fistulas.

Inflammation of sensitive parts, piles, fistulas, and such like painful diseases may be presently relieved and ultimately cured, by the proper and diligent use of this cooling and healing Ointment, whose action should, in such cases, be assisted by judicious doses of Pills: ere many days have elapsed the anxious patient will experience a wonderful degree of ease from this treatment. They are equally suitable to both sexes, and all ages.

Coughs, Colds, and Asthma.

These complaints of the chest come on with alarming frequency. The Ointment should assiduously be rubbed at least twice a day on the chest and between the shoulders, when the violence of all symptoms will gradually give way, the breathing become longer, and the oppression less. No medicines are more efficient in chest complaints, none can be used with equal safety and certainty. Both Pills and Ointment are accompanied by very clear and simple directions for using them.

A Man who refused to have his Leg off.

"From the Kilrush Advertiser, June 2nd, 1860.

BENJAMIN COX, Esquire, Magistrate, said in the Board Room at Kilrush, that he knew a man who had been in the Infirmary and was actually turned out as incurable, on his way home to Kilrush, he purchased at Ennis, Holloway's Pills and Ointment, for, as he said, it could not be worse with him. This man, said Mr. Cox, became by their use as sound and as healthy as any man in the room. These celebrated Pills and Ointment will cure any wound, sore, or ulcer, however long standing, if properly used according to the printed directions.

Gout and Rheumatism.

The essence of these diseases lie in the blood, which has, floating through each vessel, the pain-giving poison, which irritates and inflames every tissue it comes in contact with, and produces the hot, swollen, elastic enlargement about the joints so characteristic of gouty diseases. The philosophy of cure consists in overcoming this depravity in the blood, which is rapidly purified by the use of the Pills. The Ointment, when rubbed upon the skin, penetrates system through the pores, acts in unison with Pills, and soon effects a cure.

Dropsy, Swollen Legs or Ankles.

The various kinds of dropsies, whether windy or watery, arise from some obstruction to the free circulation though the blood vessels or lymphatics, or depend on the inflamed state of some secreting surface. Holloway's remedies, of which the efficacy cannot be exaggerated, act directly upon the blood, the absorbents and secretions, with a power that no dropsy, however inveterate, can long resist. They regulate the proper flow of blood to every organ, and purify it likewise,—they filter out everything that is morbid or injurious,—they thoroughly regenerate every function, yet potent as they are for good, they are powerless for evil. They do not contain mercury or any noxious substances. They act safely and certainly

Bad Legs, Bad Breasts, and Old Ulcers

This invaluable Ointment was never known to fail in the cure of any wound, any sore, or any ulcer,—as can be proved by innumerable testimonials from persons who had been discharged from Hospitals as incurable, and yet by perseverance they have been made as sound as they were the day they were born, by this incomparable Ointment. For pimples, blotches, scald heads, and scorbutic humours, it is equally efficacious.

Both the Ointment and Pills should be used in the following cases:

Bad Legs	Chiego-foot	Fistulas	Sore-throats
Bad Breasts	Chilblains	Gout	Skin-diseases
Burns	Chapped Hands	Glandular	Scurvy
Bunions	Corns (Soft)	Swellings	Sore-heads
Bite of Moschuitoes and Sand-Flies	Cancers	Lumbago	Tumours
Coco-bay	Contracted and Stiff Joints	Piles	Ulcers
Scalds	Elephantiasis	Rheumatism	Wounds
			Yaws
			Sore Nipple

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot. n13
